

Job: Chemical & Environmental Sciences Graduate

Are you a recent Chemistry graduate ready to channel your scientific prowess into a dynamic office environment? Look no further! Join our team and ignite your career in a space where innovation meets opportunity.

Position: Office-based Chemistry Graduate

Location: Knutsford/Daresbury – Northwest.

Salary: Competitive, commensurate with experience £24,000 to £28,000

About Us: Totus Environmental is one of the UK's leading providers of innovative international waste management solutions. Working with clients across the commercial, municipal and hazardous waste sectors, we work with customers to provide cost-effective and environmentally sustainable solutions. Totus has developed an unrivalled network of recycling and recovery outlets.

We are currently looking for a Chemist graduate to join our compliance team as a Technical Coordinator. This is an opportunity for someone who wants to utilise their chemistry background to develop a skill base within the waste, recycling and environmental industry. We pride ourselves on fostering a culture of collaboration, creativity, and continuous learning. As we push the boundaries of what's possible, we're seeking bright minds like yours to help drive our mission forward.

Your Role: As an office-based Chemistry Graduate, you'll be at the heart of our operations, working alongside seasoned professionals to tackle exciting challenges. Your responsibilities may include:

- To Support the Technical and Compliance team
- Logging and processing incoming waste enquiries in accordance with all applicable legislation
- Supporting the control of waste enquiries /technical assessment processes
- Supporting offsite sampling and waste management operations
- Maintain accurate and compliant duty of care records.
- Supporting the company's ISO 9001, 14001 and OHSAS 18001 systems

- Updating audit reports and NCR/H&S registers to ensure close out of issues raised by the compliance teams, ensuring systems are updated as req.
- Liaising with external laboratories
- Provide support in the application and management of accreditations, licences and permits

What we offer:

- Above average rates of pay
- 28 days annual leave (plus Bank holidays)
- Flexi- time with the potential to take an additional day's leave each month
- Salary sacrifice pension scheme
- Training and development opportunities

What You Bring:

- Bachelor's or Master's degree in Chemistry or a related field
- Strong analytical skills and attention to detail
- Adaptability and a passion for learning
- Minimum of HNC in Chemistry, degree desirable
- Proficient in IT
- 1 year waste management experience desirable
- Full UK driving licence
- Excellent written and verbal communication skills

Why Join Us:

- Opportunity for professional growth and development
- Exposure to cutting-edge research and technology
- Collaborative and inclusive work environment
- Competitive compensation package with benefits
- Make a meaningful impact on the world through science and innovation
